Chip and Eric:

Attached is our agenda for tomorrow's meeting. The LWG has conducted an initial review of EPA's directive comments on the draft Remedial Investigation and draft Risk Assessments, and consolidated those directive comments into 8 general categories for discussion tomorrow. The categories are listed on the agenda with the corresponding EPA comment numbers. We have also added a ninth category regarding the non-directive comments pertaining to the RI groundwater sections (this will generally be an "FYI" discussion in preparation for the upcoming RI meeting on non-directive comments).

We look forward to a constructive conversation tomorrow and gaining further clarity from the Agency on these issues. This will help us develop a path forward for our next meeting on the directive comments scheduled for September 9, 2010.

Please call me if you have any questions, otherwise we will see you tomorrow at 9:00am.

Thanks,

Jim McKenna
